Subject: 1991 Annual Report - Bingham Canyon Mine, M/035/002

Dear Mr. Hedberg:

Please see the attached Annual Report and a map depicting the areas of new disturbance for the most recent reporting year. Additional areas of reclamation and/or new disturbance, located within the Bingham Canyon Mine Permit Boundary, that were not directly related to mining activities will be detailed in the Annual Reclamation Report scheduled for submittal in March 1992.

Please call me at 569-6555 if you have any questions.

Sincerely,

Frederick D. Fox
Director, Environmental Affairs

II. MINING AND RECLAMATION

1. Was the mine active during the past year? Yes ☒ No ☐
2. If active, how much ore or mineral was mined? See No. 4
3. How much new or additional acreage was affected during this year?
27.5 acres
4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.

During the reporting period, an estimated 47 million short tons of ore were mined resulting in a 9.2 acre increase of previously undisturbed ground (see attached map). During the same reporting period, an estimated 60 million short tons of waste material were removed from the mine and deposited on waste dumps. Waste dumping affected 18.3 acres of previously undisturbed ground (see attached map).

5. How much acreage was reclaimed during past year? See No. 6
6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

As per agreement with DOGM Personnel, reclamation work performed during the past year will be detailed in the report scheduled for submission to DOGM in March, 1992

7. What is the total disturbed acreage at years end? 1230.1 acres
8. Briefly summarize mining and reclamation planned for the upcoming year?

Mining activities for the upcoming year will be primarily confined to interior benches of the existing pit. Reclamation activities for 1992 will be detailed in report scheduled for submission to DOGM in March, 1992.

NOTE: Section III., "Additional Information" applies only to large mining operations.

III. ADDITIONAL INFORMATION

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
